(github.com/tushkiz)

TECHNICAL SKILLS

- JavaScript (native, jQuery, Backbone.js)
- Working knowledge of Java.
- Comfortable using Linux/Unix and Git version control.
- Things I've used on projects: Underscore.js, RequireJS, Node.js, Grunt.js, Bootstrap
- Currently exploring: React JS, Webpack

WORK EXPERIENCE

Senior Software Engineer @ Globant (Clarice Technologies)

Understanding the requirement and design/develop application architecture that meets the functional needs of our customers and partners
Build efficient and reusable front-end abstractions and systems
Identify and address performance bottlenecks
Managing UI build and maintaining VCS branches
Identify and communicate best practices for front-end engineering with the rest of the organization.
Mentoring new joiners

Product 1: Cloud Orchestration & Automation Engine

Product 2: Software Defined WAN

- I am responsible for architecture and development Single Page App
- Understanding NFV services and help Design team for crafting the UI
- Extending existing components to support variable parameters
- **Technologies Used:**
 - Backend: Java (REST Services), Shellinabox
 - Front-end: Backbone JS, JQGrid
 - Templating: Dust JS

Engineer Trainee @ Cognizant Technology Solutions (2012 – 2013)

Understanding and documenting the workflow

INTERESTS

- I have a great deal of interest in learning and trying out new technologies and architectural trends
- Helping people how to use Git, recovering from situations they are not sure how to get out of.
- Sharing productivity (dev) tips.
- In near future, I intend to contribute to open source and learn more about functional programming and computer networks.

EDUCATION

B. Tech Computer Science and Engineering (7 CPI)

Walchand College of Engineering, Sangli (2009 - 2012)

Diploma in Computer Technology (88.86%)

Government Polytechnic, Nashik (2006 - 2009)
